

TOM RYAN

Tom Ryan walked into a small coffeeshop in the even smaller town of Milwaukie, Oregon one morning in 2008 and changed the world of **The ByrdBrains** forever.

This musical multi-tasker hails from Wisconsin where he cut his teeth on guitar at a very early age. His teeth have since healed, by the way. Life and other things blocked Tom's path to musical nirvana for 29 years before a chance friendship with The Kingsmen's Mike Mitchell changed all that. Mike encouraged him to respond to **The ByrdBrains'** Craigslist ad and the rest is becoming history.

Tom's abilities with guitars, keyboards, percussion (Tom's our Tambourine Man!) and vocals are second only to his drive for perfection in everything he does, and this is evident in every note he plays.
